三、篇章結構：

第 36 至 40 題為題組

News reports about wars are filled with statistics, numbers and technical information. 36. Caught in the recent war on Iraq were many Iraqi civilians, one such person was a 32-year-old lawyer named Mohammed. On a usual visit to the hospital to see his wife, who worked as a nurse, Mohammed was surprised to see many security agents there. 37. Mohammed wanted to see the soldier but a security agent was in the room, keeping watch over the injured female soldier. Unknown to him at the time, Mohammed had found Jessica Lynch. 38, was wounded and captured. Mohammed knew Jessica was suffering and thus decided to help her. 39. He comforted her and explained his intention. Mohammed later managed to inform the American troops of Jessica's whereabouts. 40, leading to a successfully rescue of Jessica.

Mohammed's actions proved that human compassion can cross borders and nations and human's scope for sympathy needs not be diminished in times of war.

- (A) When her division fell victim to the Iraqi forces, Jessica, a 19-year-old U.S. Army private
(B) Mohammed later found out that an American soldier was being held at the hospital

- (C) Together with his wife they supplied the soldiers with hand-drawn maps and details about the hospital
- (D) Some of the information is impressive, but the most impressive are the stories of human compassion
- (E) The next day he managed to reach Jessica when the guard was out

第 41 至 45 題為題組

According to a group of researchers, you are more likely to become overweight if you have more children. Doesn't this sound scary to all moms and dads?

Here is exactly what scientists found among mothers, 41. The current conclusions are drawn based on the information from 4,286 women and 4,252 men living in 24 towns in the U.K. 42. It was discovered that the more children parents have, 43. After having two children, the addition of every new child would increase the risk of heart disease among mothers by 30%, and among fathers by 12%.

44. It was suggested that numerous pregnancies might increase the risk of heart disease due to the decrease of certain hormones after each birth. 45. It is believed that parents of large families tend to be poorer and have less healthy lifestyles. Parents are thus reminded not to forget taking care of themselves while giving the best to their babies.

- (A) Socio-economic factors are also a concern
- (B) the more likely they would have a high waist-to-hip size ratio
- (C) There are some explanations for the unexpected outcome of this research
- (D) All study participants were between 60 and 69 years old
- (E) the risk of getting diabetes and heart disease tends to climb with every additional baby born

第 46 至 50 題為題組

Recently, the body of a giant squid was discovered by fishermen in Antarctica. It is the best specimen we have to date, 46.

However, the body of this creature is different from the ones discovered in the past. 47. Its body, not including the tentacles, is already 2.5 m long. It would be 6 m long if they are included. 48. Despite having long and powerful arms, this new killer of the sea has extra weapons at its disposal: 49. 50. The new creature is guessed to be bigger and much more fearsome, with its deadly hooks on its arms. That's why the first biologists thought that it is proper to name it the "colossal squid", which separates it from its cousin, the more tranquil giant squid.

- (A) sharp hooks together with sucking pads under its long arms, allowing it to claw at its victims
- (B) Once fully grown, its size should be much greater than that of a giant squid
- (C) The new creature has been estimated to be only a young squid and not yet fully grown
- (D) From biological evidence, it has been estimated that the giant squid attains a size of 18 m
- (E) as all proofs we previously had about their existence were remains found inside the stomachs of whales
